

HAZWOPER 24 Hour

Course Description

HAZWOPER 24 Hour is required for workers on site occasionally and who are unlikely to be exposed over published and permissible exposure limits and for workers regularly on site working in areas which have been monitored and fully characterized that exposures are under published and permissible exposure limits where there are no health hazards or the possibility of an emergency developing.

This course is specifically designed for employees who are involved in clean-up operations, voluntary clean-up operations, emergency response operations, and storage, disposal, or treatment of hazardous substances or uncontrolled hazardous waste sites. Topics include protection against hazardous chemicals, elimination of hazardous chemicals, safety of workers and the environment and OSHA regulations. This course meets the training requirement outlined in **29 CFR 1910.120**.

This training is required before an employee is permitted to engage in hazardous waste operations.
